Chautauqua County
Union Concrete Construction**

Good afternoon,

My name is Jennifer Freaney, PE1, with NYSDOT Region 5. I will be the contact for the Chautauqua Lake Bridge job moving forward. Beginning next week, the contractor plans on performing nightly closures and Ramp Work.

March 4th, Union Concrete Construction will be Closing Exit 10 EB to 430 Long Point State Park to implement the Phase 1 WZTC paving for Crossover 5. Traffic looking to travel West on 430 will be detoured to the next exit, Exit 11. This closure will remain in place for the remainder of the phase I work and an alternate connection will be established and implemented during Phase I Construction.

Union Concrete Construction has also slated March 5th, 6th, 7th as the dates they would like to begin closing the WB at Night to begin installing the centerline barrier for the Phase 1 WZTC.

The evening of March 8th Union Concrete Construction will be performing the traffic switch where we will be moving the EB Traffic to the WB portion of the highway and completely closing the EB portion of the Bridge for the remainder of the season. Union Concrete Construction will also be on site Saturdays performing contract work in the ROW until further notice. Next week's night time closures are slated to happen from 9pm – 6am.

I have attached the proposed Detour Routes for your reference if you have any questions or concerns, please feel free to contact me anytime, my contacts are at the bottom of the email.

Sincerely,

Jennifer J Freaney P.E.1
